HEALTH OF AMERICAN WOMEN. This certifies that my wife was affilted with prolapsus and tragularities and weakness for a long time. She was active the second of the best dectors in this section, who all said they could care her easily; but she grew worse. Hearing the Brasfenberg Uterine Catholice is highly recommended, I tried it, and to my surprise and great by it cared her. She is now heavier and better than ever in her life. My education prejudiced me against all advertised remedies, or I should have tried it somer; but I cannot withhold this testimony, for it is due in justice to what I must believe the best medicine in the world for all diseases of women Coppenyiller Miss., July 8, 1950.

SATURDAY, Sept. 8-P. M.

The Stock market was active and strong throughout the morning session, with an unusually good demand for the chares of our local railways, such as New-York Central, Hudson River, Erie, and Harlem. Quotations for these stocks were from ½ to 1 ₱ cent higher than the closing prices of Friday, and the dealings were mostly in cash stocks. The Western shares were active, but without material change in prices, except for Illinois Central and Michigan Southern, common and guaranteed, all of which advanced, with a vigor ons and vell-sustained demand. Reading, with moderate transactions, was quite firm at 471 through the day. The Bond market was steady throughout, and for some of the railway issues there was more inquiry, at an improvement in quotations. Michigan Southern second mortgage advanced to 681, but afterward fell back to 68. Illinois Central bonds went to 96] and Chicago and North-Western First Mortgage advanced 1 # cent. At the Second Board the market was rather heavy at the opening of business, and prices were somewhat irregular, but toward the close the tone was firmer. Illinois Central advanced 1, and was one of the firmest stocks on the list. The Michigan Southern shares were about 1 1 cent lower, while for New-York Central, Erie, Toledo, and other leading stocks, the quotations were about th same as those given at the close of the Second Board. Pacific Mail, which sold at 84 in the morning, was better, and closed at 81 bid. A report is in circulation that that the Roberts party has bought out Commodore Vanderbilt on the Atlantic side. There was a decline of 1 + cent in Michigan Southern Second Mortgage bonds, which were donat 67. After the Board the market was dul but steady. The quick rally in prices witnessed during the week has been accomplished mainly by ontaide orders, which come in liberally at every decline, but partly by the purchases of the short interest, which had grown to an extent somewhat dangerous to the sellers. The closing prices were: United States 5s, 1874, 103 @ 103¼; Tennessee 6s, 90; @ 91; Virginia 6e, 91; Missouri 6e, 81 | @81 |; Canton Co., 19 @ 19 |; Pacific Mail, 84; w85; New-York Central Railroad,

The business of the Sub-Treasury was: Receipts \$193 952 15; for Customs, \$106,000; Payments \$206 108 30; Balance, \$5 533,650 15.

The money market is decidedly easy to-day, with a disposition to make some concession in rates. Demand cars are 6 27 * cent, with an occasional loan at 5 25] ♥ cent. Paper of first class is 6@7 ♥ cent, according to maturity. The City of Baltimore to-day for Liverpool takes \$384,677 in specie and the Vanderbilt \$814, 216, which is about the amount expected. The exchanges at the Bank Clearing-House this morning were \$22,894 322 14, and the balances \$1 181 800 53. The total exchanges for the week ending this morning were \$144 434,429 62, being a daily average of \$24, 072,404 94, against \$22 561,085 94 during the week ending on Saturday last. Among the evidences of the substantial improvement in the railway traffic of the country are the frequent announcements of readiness on the part of many lines, who have remained in default since 1857, to resume interest payment on their bonds. We hear that the Toledo and Wabash Company will commence to pay in about ten days the February (1860) coupon on the first-mortgage bonds, the necessary funds now being in this city. From present appear ances, the August coupon will be paid about November 1. The Stock Exchange resumed to-day the holding of second sessions, which were suspended about a month since.

We have heretofore published a report of the frauds committed upon the Pennsylvania Railroad, by a conspiracy between some of the conductors and ticketselling agents. The manner in which the frands were effected, and of their detection, is thus narrated in The

Cincinnati Gazette:

"The Vice-President, Mr. Scott, had acceptained that one conductor had purchased a property in Philadelphia, for which he prid \$12,000 cash. He had no means when he went into the road a year or two previous. Another conductor was paying \$100 rent, while his salary was but \$150. These and other men who were living beyond their income were watched, but nothing wrong could be detected. It was olear, however, that a large amount of the cash collections were being withheld daily, and it wrong could be detected. It was clear, however, that a large amount of the cash collections were being withheld daily, and it is street that as much as 60 per cent of the amount collected by cert-sin conductors was retained. As the money did not come in fast enoughtunder this system, a combination was found between some ten or twelve conductors and some half-dozen telest agents or sellers on the Pennsylvania Central who were in league, it is believed, with similar employees no other roads, direct connections of the Pennsylvania Central, by which a certain amount of tickets taken up daily should not be punched, as required, but should be returned to the ticket ament to be resold.

"Numerous plans and traps were devised and set to detect the guilty ones, but up to last week all had been a failure. Mee were at last employed who purchased tickets in Cincinnati and Columbus for Philadelphia; these tickets were privately marked; and the day they were used, as well as the name of the conductor, were reported to headquarters. It was found in several instances that these tickets, although used, were not reported for ten days, and were, of course, resold. A certain party in Philadeurg applied to the ticket spent to suspect something wrong; and before giving any answer he reported the matter to headquarters. He was then instructed to say to the party applying to have tickets sold, that if he would bring local fickets, he would sell them for him, but that he could not sell the coupons. The result that was local fickets were boust and thus the robbery was detected, a several suspected parties were then questioned as to their compicity in the matter, sone of whom pleal guilty and returned their fill-gotten property, while guilt was fastened upon others."

It will be remembered that considerable sales of guano from islands in the Pacific were made last Spring to Southern planters. As the crops are beginning to ripen, we now have opportunity to observe the results. The Macon (Ga) Telegraph says: "We are glad to hear generally favorable accounts of the influence of the American guano upon the crops, particularly as doubts have been expressed in regard to it as a fertilner." The Savannah News publishes a letter from Charles A. Peabody of Columbus, in the same State which speaks of the "magical effecte" of this peculiar substance lately imported in large quantities from the Pacific ecean, and calls the special attention of the press to the fact that "cotton, rivaling Sea Island for many purposes, is grown in abundance on very poor ands, with the aid of American guano." Fact of this kind go to establish the value of the numerous islands (containing guano deposits) which have been appropriated by American merchants and sea captains, under a special law of Congress passed at a recent session.

To the Directors of the Eric Railroad.

GENTLEMEN: The second-mortgage boudholders, to whom you appeal for a lengthy extension of their bonds, have a claim for some advantages before assenting to your wishes, to wit: Many large bolders of second-mortgage bonds are opposed to any further delay of payment on the ground that said mortgages or bonds being like paper money, payable to bearer, are an unsafe property to hold, inasmuch as they are liable to be lost or stolen, or misepplied by dishomest agents, without timely notice to prevent tetal loss. therefore, in asking such extension, it becomes the duty of the Directors, in view of the interest of the Company, to offer the induscement of period safety against the existing inascurity of holding such property, as mosed, by offering to make all such bonds transferable, on application of their present holders, to be indoseed on the back of the bonds and recorded upon the books of the Company, and notifying the community that future ownership in the same will only be recognized by the Company when duly transferred upon their books, and indorsed upon said bonds, as usual in ordinary transfers. Such a indorsed upon said bonds, as usual in ordinary transfers. Such a course on the part of the Directors will greatly advance the interest of the Company, by securing the extension of a large number est of the Company, by securing the extension of a large number of bonds, now held by many persons anxious for such security of bonds, now held by many persons anxious for such security of bonds, now held by many persons anxious for such security.
